**12 MONTH LIMITED WARRANTY**

Auto Meter Products, Inc. warrants to the consumer that all Auto Meter High Performance products will be free from defects in material and workmanship for a period of twelve (12) months from date of the original purchase. Products that fail within this 12 month warranty period will be repaired or replaced at Auto Meter’s option to the consumer, when it is determined by Auto Meter Products, Inc. that the product failed due to defects in material or workmanship. This warranty is limited to the repair or replacement of Auto Meter instruments. In no event shall this warranty exceed the original purchase price of the Auto Meter instruments nor shall Auto Meter Products, Inc. be responsible for special, incidental or consequential damages or costs incurred due to the failure of this product. Warranty claims to Auto Meter must be transportation prepaid and accompanied with dated proof of purchase. This warranty applies only to the original purchaser of product and is non-transferable. All implied warranties shall be limited in duration to the said 12 month warranty period. Breaking the instrument seal, improper use or installation, accident, water damage, abuse, unauthorized repairs or alterations voids this warranty. Auto Meter Products, Inc. disclaims any liability for consequential damages due to breach of any written or implied warranty on all products manufactured by Auto Meter.

**QUESTIONS:**
If after completely reading these instructions you have questions regarding the operation or installation of your instrument(s), please contact Auto Meter Technical Service at 815-899-0801. You may also email us at service@autometer.com. Additional information can also be found at http://www.autometer.com/tech_faq.aspx

---

**Mounting**

It is important to mount the converter away from any direct engine heat sources. Make sure the wires reach the kill switch and a 12 volt source.

**Wiring**

RED - To a switched 12 volt source.
BLACK - Connect to the negative battery terminal.
VIOLET - Connect to the trigger input wire of the tachometer.
BROWN / BLACK - Common ground or COIL Negative.
BROWN / ORANGE - MSD Pro Mag
BROWN / YELLOW - Mallory or Vertex External Coil and Capacitor.

*We recommend that helically wound type suppression plug wires be used instead of solid core wires. Check with magneto manufacturer on application.*

---

**Tip:** For Super Mag applications it is recommended that ground straps be connected from the magneto clamp to both cylinder heads.
